

“UMSAILS-UAP SPRING SCHOOL 2020”

From
10th March to 14th March 2020

Organized by

South Asian Institute of Advanced Legal and Human Rights Studies (SAILS)

&

Department of Law and Human Rights, University of Asia Pacific

UMSAILS- UAP Spring School revolves around 5 days experience designed to give you new ideas, national and international network and inspiration. Young people are dedicated to, passionate about and essential for shaping a better future. It is an opportunity to see, feel and know more about sustainable development goal (Goal- 16). Program components involve gaining insights from experts through lectures, participating in class and real life experience. This is a physically, mentally and socially engaging program where participants enrich themselves, the communities they visit and each other.

Adopted by the United Nations in 2015, the Sustainable Development Goals (SDGs) are 17 goals with 169 targets that the UN is committed to working towards through the year 2030 with the hope of creating lasting positive change and freedom in the general areas of People, Planet, Prosperity, Peace, and Partnership. The purpose of these goals is to create a framework for

development programs that will focus on eradicating poverty, hunger, violence, fear, and disease and promoting literacy, equality, human rights, sanitation and hygiene, education, and physical, mental, and social well-being. These goals are meant to build on the Millennium Development Goals and work towards the three key areas the UN identifies for sustainability, which are economic, social, and environmental development.

SDG Goal 16 - Peace, justice and strong institutions: Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels. The purpose of this goal is to reduce all forms of violence and violent deaths, end abuse, trafficking, and exploitation of children, and promote rule of law at all levels to ensure access to justice.

Included in this goal is the reduction of illegal financial and arms flow, the reduction of corruption and bribery, and the development of

accountable and transparent institutions. Additionally, this goal strives to ensure responsive, inclusive, and participatory decision-making at all levels, broaden the participation of countries in global governance, provide legal identity and birth registration for all people, and ensure public access to information and the protection of fundamental freedoms.
